#### Chapter 2:

This Reclaiming Employment course is called “Visioning and Planning.” We included this course to help you in the very early stages of starting a business. This is the first of six modules for this course.

#### Chapter 3:

I want you to say at the end of this course: “Because I took this course, now I believe that I can start a business.” At the end, you still might not know all of the steps, but I want you to know that there are people like you who were able to start a business. All those people -- people like me -- have struggled. It’s not easy. But you never know how it’s going to go unless you try.
