# Reclaiming Employment

**Course:** *Visioning + Planning*

## MODULE 2: VISIONING

---

### INSTRUCTOR SUCCESSFUL VISION: VIDEO

Something inside compelled me to do it again. I kept thinking about what my father said. I couldn't let go of my vision, my calling, my sense of life purpose. Also, I had gotten a taste of entrepreneurship and I couldn't go back. I loved working for myself. After what I had been through as a young person, it challenged me to stand on my own two feet – which is both exhilarating and terrifying.

In a way, Reclaiming Employment is an extension of that vision: I created it so that what happened to me in my first business doesn't happen to you. That is what I mean by a vision sustaining you. It's something that you can come back to, when you feel like things aren't going in the right direction. I want to help you start a business that sustains you in the same way.
